The Enhanced Partnership is an agenda item on the Community Transport Forum meeting. The following were discussed as part of this item.

Simon Barnett provided an update on the Bus Strategy / Bus Service Improvement Plan (BSIP) & Enhanced Partnership (EP).

Simon Barnett reiterated the importance of a representative from the CT Forum to feedback to the EP via the EP Forum.

Doug Gray confirmed interest in the BSIP but could see no indication of SCC outlining bus corridors, making it difficult to see a way forward.

Simon Barnett confirmed the corridors are in line with the commercial bus network. Paul Horne advised that a map of the corridors is within the published EP document available on the EP web page.
